Abstract	I
Acknowledgement	II
List of Figures	Page: 54
List of Tables	Page: 17

## **Table of Contents**

### **1. Chapter 1 Introduction**

- 1.1. Existing System
- 1.2. Objective of the system
- 1.3. Problem Definition
- 1.4. Core Components
- 1.5. Project Profile
- 1.6. Assumptions and constraints
- 1.7. Advantages of the Proposed System
- 1.8. Limitations of the Proposed System

### **2. Chapter 2. Requirement Determination & Analysis**

- 2.1 Requirement Determination
  - 2.1.1 Functional Requirement
  - 2.1.2 Non-Functional Requirements
- 2.2 Targeted User

### **3. Chapter 3. System Design**

- 3.1 Use Case Diagram
  - 3.1.1 Use Case for Admin
  - 3.1.2 Use Case for User
- 3.2 Class Diagram
- 3.3 Interaction Diagram
  - 3.3.1 Interaction Diagram for Admin
  - 3.3.2 Interaction Diagram for User
- 3.4 Activity Diagram
  - 3.4.1 Activity Diagram for Admin
  - 3.4.2 Activity Diagram for User
- 3.5 Data Dictionary

#### **4. Chapter 4. Development**

##### **4.1 Coding Standards**

###### **4.1.1 ASP.NET**

###### **4.1.2 Telerik Rad Controls**

###### **4.1.3 MS SQL**

##### **4.2 Screen Shots**

#### **5. Chapter 5. Agile Documentation**

##### **5.1. Agile Project Charter**

##### **5.2. Agile Product Roadmap**

##### **5.3 Agile Project Plan**

##### **5.4 Agile User Story**

##### **5.5 Agile Release Plan**

##### **5.6 Agile Sprint Backlog**

##### **5.7 Agile Test Plan**

##### **5.8 Earned – values and Burn Chart**

#### **6. Chapter 6. Proposed Enhancement**

#### **7. Conclusion**

#### **8. Bibliography**

# **A PROJECT REPORT ON**

## **“Electricity Hub”**

A major project report submitted in partial fulfilment of the requirements for the award of the Degree of Bachelor of Technology

In  
Computer Science and Engineering

*Submitted by*

**NISHANT RAJ 2001292107**

RITIK RAJ 2001292265

*Under the supervision of*

**Prof. SATYABRATA DAS**

*Associate Professor, Dept. of CSE*

Gandhi Vihar, Madanpur, Bhubaneswar-752054 2019-2023

## **ABSTRACT**

The objective of the electricity service management system is to streamline the administration of various aspects related to electricity consumption, including electricity power, light bills, payments, usage, and charges. This project focuses on empowering administrators with comprehensive tools to efficiently manage electricity usage data and facilitate billing processes. By centralizing information on electricity usage and bills, the system aims to minimize manual intervention, enhancing accuracy and efficiency.

However, a significant challenge lies in the disconnect between offline customers and online services. While internet usage is burgeoning, customers face the dilemma of navigating through numerous websites offering disparate services. This discrepancy highlights the need for a cohesive platform that bridges the gap between electricity hubs and consumers. The proposed system endeavors to address this issue by establishing a robust online presence that caters to the diverse needs of customers while fostering a personalized and responsive relationship between electricity hubs and consumers.

In summary, the electricity service management system seeks to revolutionize the management of electricity-related tasks by offering a user-friendly interface for administrators and enhancing the online experience for consumers. By addressing these objectives and challenges, the system aims to optimize efficiency, improve customer satisfaction, and strengthen the relationship between electricity providers and consumers.

## **ACKNOWLEDGEMENT**

Our sincere thanks to **Dr Dushmanta Kumar Padhi**, Professor and Head of the Department of Computer Science & Engineering, Gandhi Engineering College (GEC), Bhubaneswar, for his encouragement and valuable suggestions during the period of our Project work.

No words would suffice to express my regards and gratitude to **Prof. Satyabrata Das**, Department of Computer Science & Engineering, for his inspiring guidance and constant encouragement, immense support and help during the project work.

Place: Bhubaneswar

Name: Nishant Raj

Date: 20<sup>th</sup> April, 2024

Reg Number: 2001292107

# **Certificate**

This is to certify that the work in the Project entitled “**Electricity Hub**” by **Nishant Raj**, bearing **2001292107**, is a record of an original research work carried out under my supervision and guidance in fulfilment of the requirements for the award of the degree of Doctor of Philosophy in Computer Science & Engineering. Neither this project nor any part has been submitted for any degree or academic award elsewhere.

To the best of my knowledge, **Nishant Raj** bears a good moral character and decent behavior.

**Prof. Satyabrata Sir**

Designation of the Supervisor,

Associate Professor,

Department of Computer Science Engineering,

Gandhi Engineering College, Bhubaneswar
